WHY COMPANIES CAN'T BRIDGE THE GAP

European companies seek access
to the massive U.S. market

But, **84%** fail within first two years

- Lack of funding
- Know-how deficiency
- No local network
- Legal & tax hurdles
- Immigration issues

There must be a better way...

- Accelerate time to market
- Navigate business environment
- Local & government relationships
- Access to funding

THE SPGX SOLUTION

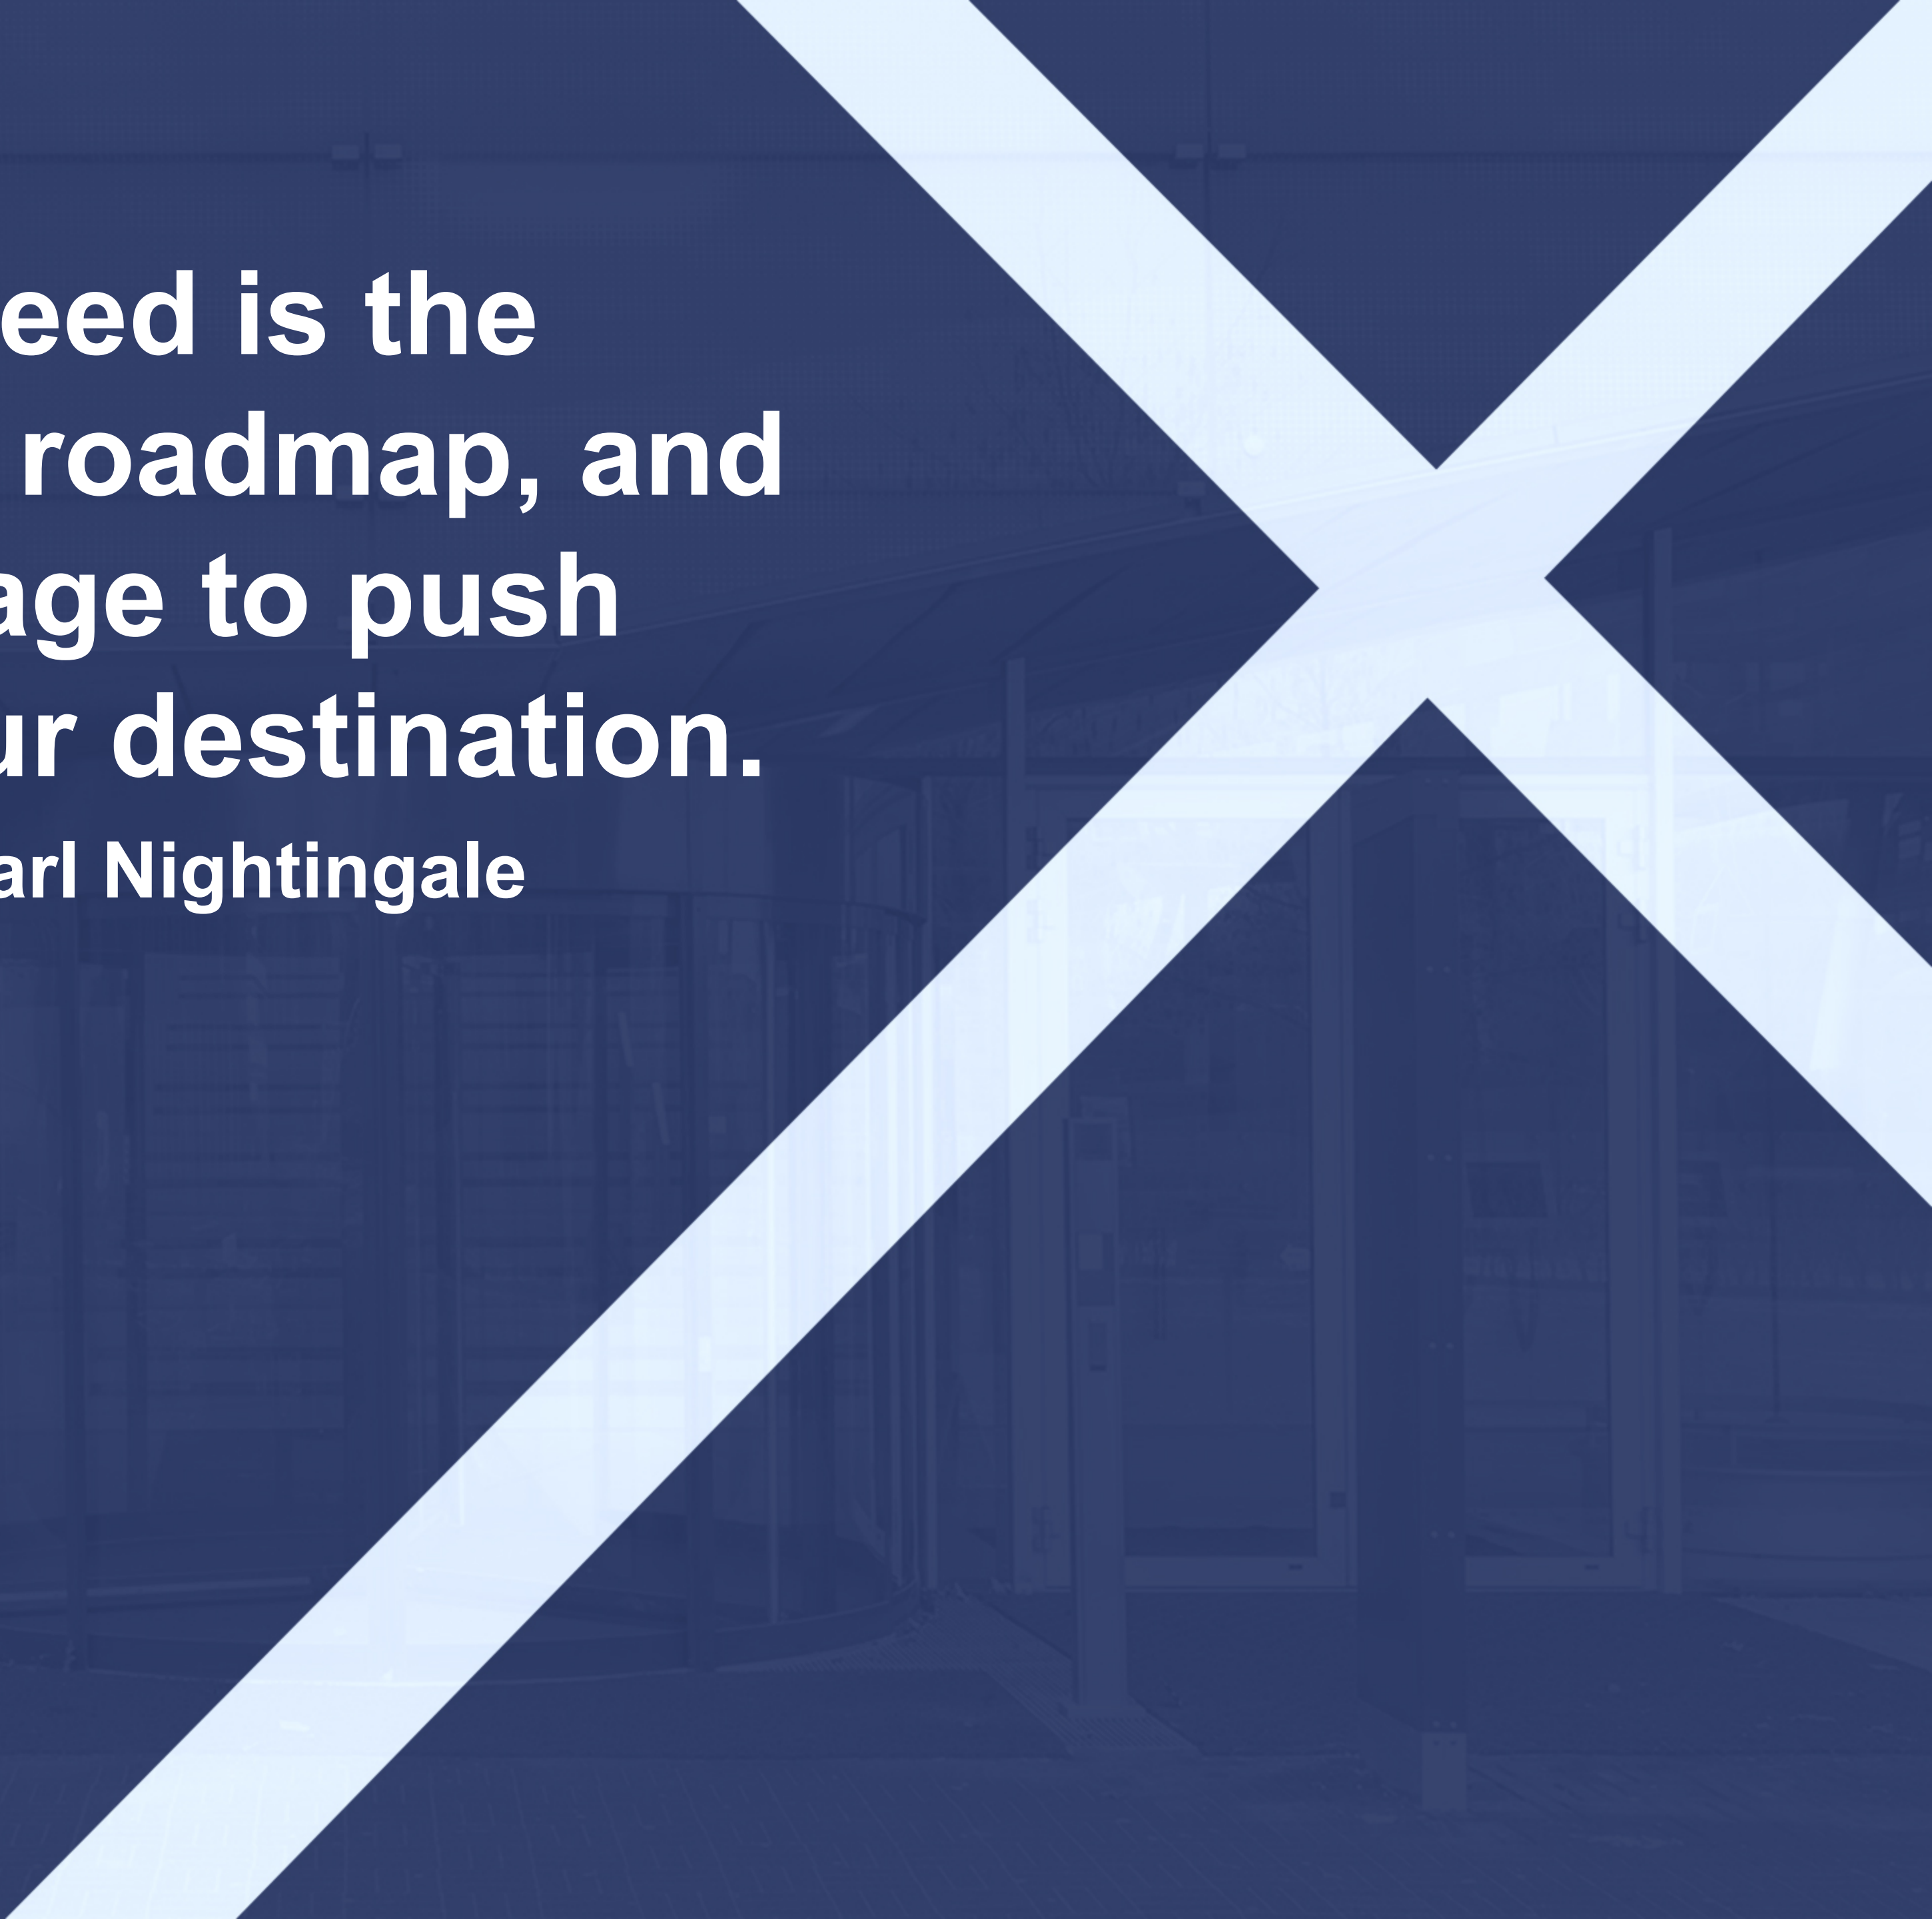

Management & Business
Development in a Box

Ideal SPGX Targets

- **Innovative, young European companies**
- **Proven product (first revenues, pilot production)**
- **Experienced management**
- **Strong IP portfolio**
- **Focused on solving megatrends in sustainability**

**All you need is the
plan, the roadmap, and
the courage to push
on to your destination.**

— Earl Nightingale

through trade sale or
IPO after 24-36 months

**Short-Term Revenues & Long-Term Gains
= Profitability from Day 1**

DRIVING GROWTH

- Fragmented market potential (8.4m in Switzerland, 82.8m in Germany, 513.5m EU)
- Strong, innovative companies
- Leaders in sustainability

- Homogeneous market of 330m
- Premium investment market
- Favorable tax and business climate
- Eager for new ideas in sustainability

CASE STUDY: CORMO USA

ABOUT

Cormo's technology converts corn field waste into value added products such as peat moss substitute & alternative materials.

INVESTMENT

USD700k soft money investment (services) for 35% stake. SPGX's largest investment to date. USD500k seed capital raised.

PROVEN MODEL

Cormo AG pilot plant in France in production since 2016. Strong IP portfolio & independent verification completed.

POTENTIAL

Cormo USA aims for net profit breakeven by 2021. SPGX aims for target valuation at exit of USD50m+.

CASE STUDY: CORMO USA

- **USD8m incentives secured**
 - **Advanced discussions with key customers**
- **Industrialization & upscaling**
 - **Gained strong support from local, state & federal officials**
